Ask a question about this product

Description This vehicle is powered by a 170cc, single-cylinder, 4-stroke, air-cooled engine that features an electric start ignition and a fully automatic transmission with reverse. It produces 10.1 horsepower, achieving a top speed of up to 60 km/hr. Both the front and rear brakes are disc type, ensuring reliable stopping power, and it's equipped with a PZ30 carburetor for efficient fuel intake. The tires are sized 23x7-10” in the front and 22x10-10” in the rear, mounted on stylish rims. It includes safety and convenience features like a remote kill switch, an LCD speed governor, a double person seat with backrest, and a hand shift lever. Visibility is enhanced by Angel LED lights, and comfort is provided by an enhanced dual A-arm and shock absorber suspension system. The seat height is 32 inches (81cm), and the vehicle has a dry weight of 331lbs (150kg). Its overall dimensions are 72" x 47" x 46" (182cm x 120cm x 117cm), making it a robust and comfortable option for riders.

This Gas ATV is shipped 90% assembled, some assembly is required.

This Gas ATV requires but is not limited to:

- Basic understanding of Carburetor function. Example: Choke ON, Choke OFF
- Ability to Perform Oil Change and Check Oil
- Basic Small Engine Maintenance
- Battery Connection
